

# Our Golden Opportunity

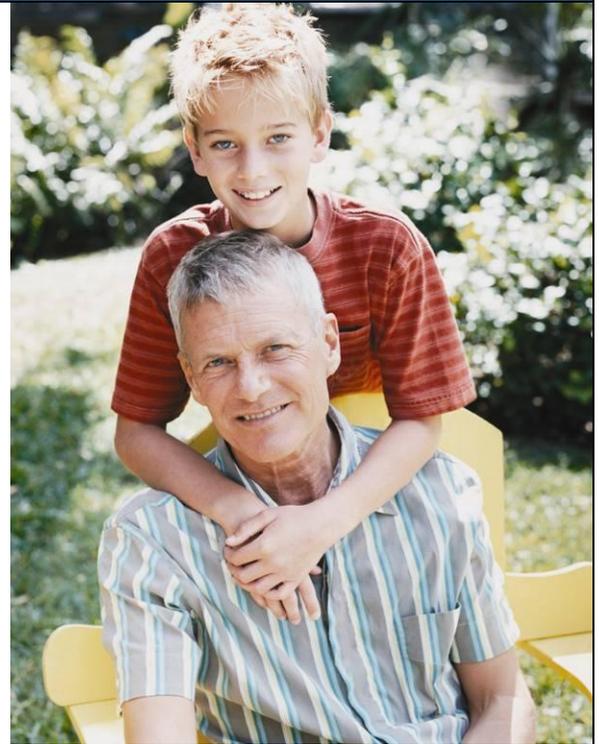

## Transfer of Wealth Research

**Following the Great Depression and World War II**, the United States entered a golden age of business growth and personal prosperity. Americans have created, invested and multiplied unprecedented private wealth. Over the next 50 years, this capital—a conservative estimate of \$53 trillion—will change hands. Most will certainly go to heirs (and taxes), but a portion may be preserved as your legacy for the future of Lorain County.

This research estimates the portion of wealth transfer likely to happen in our state and community. Retaining a slice of that wealth for philanthropy as it transfers generations is a historic opportunity for strengthening Lorain County. That's why the Community Foundation is working to encourage planned gifts and bequests that will Touch the Future as endowments that will ensure a stronger future for Lorain County, forever.

### Ohio Transfer of Wealth

Using conservative analysis, economists estimated the current net worth of Ohio residents to be \$909.27 billion (\$178,000 per household). Over the next ten years, \$160.54 billion (\$31,000 per household) is expected to pass from one generation to the next. Over the next 50 years, \$1.07 trillion (\$210,000 per household) of wealth is expected to transfer to heirs.

Transfer of Wealth	Lorain County	State of Ohio
2005 to 2015	\$ 3.42 billion	\$ 160.54 billion
2005 to 2055	\$ 23.86 billion	\$ 1.07 trillion

### Lorain County Transfer of Wealth

Today, the current net worth of Lorain County is estimated at \$20.2 billion. During the coming decade, \$3.42 billion is expected to transfer from one generation to the next. Over the next 50 years, the estimated transfer of wealth for Lorain County is \$23.86 billion.

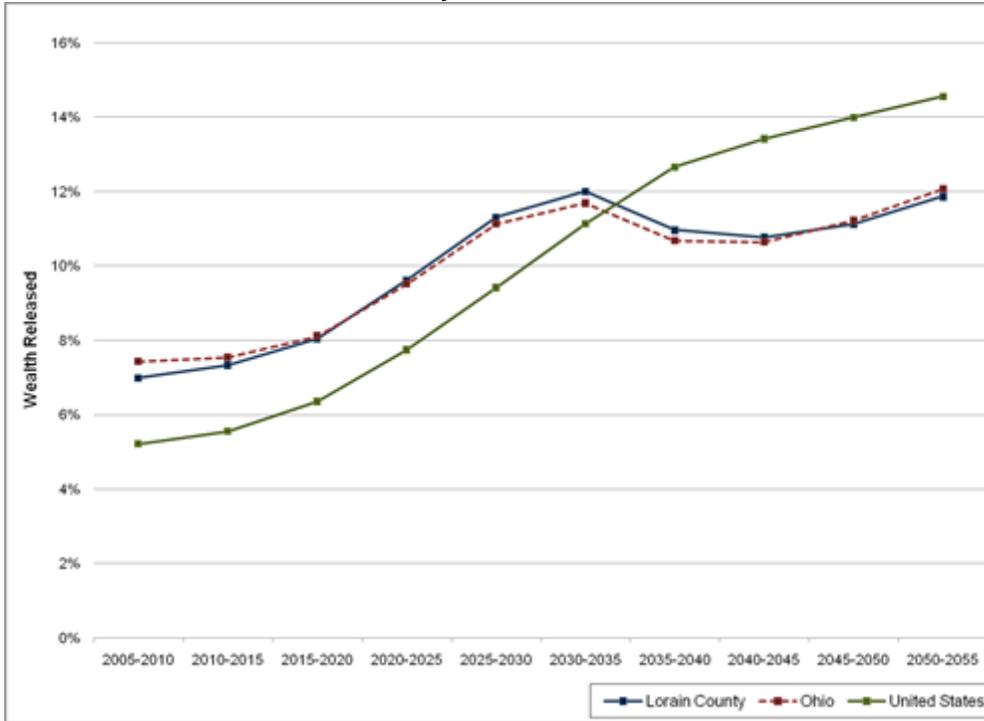

In the next ten years, if just five percent of this transfer could be invested at the Community Foundation of Lorain County in endowed funds, nearly \$170.83 million would be gained. Figuring a five percent grant payout, an estimated \$8.54 million could be available annually to improve the quality of life in our community and secure our future.

### Comprehensive Report is Available

A complete report of Ohio's wealth transfer opportunity includes background, analysis, methodology and county comparisons. Please contact the Community Foundation of Lorain County or Ohio Grantmakers Forum for more information.

**U.S. and Ohio Wealth Transfer: A Likely Scenario**

*“Our communities will experience a once-in-a-lifetime opportunity in the next several decades as significant wealth is transferred from one generation to the next. We want to reach out and ask everyone to be a part of securing our future.”*

*Don Macke  
RUPRI Center for Rural Entrepreneurship*

The RUPRI Center for Rural Entrepreneurship indicates the transfer of wealth in Ohio will peak from 2025 to 2030, which is earlier than our nation as a whole.

**Wealth Drivers**

Many factors have a significant impact on projections for the transfer of wealth in each community.

- Current net worth creates a starting point for future wealth creation.
- Demographics, such as employment, education, age and population changes, play central roles in current and future wealth.
- Community economic performance and individual business ownerships contribute to wealth generation.
- Customs and general spending behaviors impact future spending and saving habits.

On average, net worth increases with age. In the United States, net worth rises from a modest \$74,000 for families 35 and younger (head of household age) to more than \$800,000 as families reach their mid-50s into early 60s. Then net worth begins to decline as earning power drops and assets are used in retirement and for health care.
